### Petitioning the Court to Take Judicial Notice

#### Cause

#### Charge Number

#### Violation

One

There is probable cause to believe the person under supervision violated special condition number one that states, in part, the defendant shall participate in a program of testing and treatment for drug abuse.

On May 8, 2023, Mr. Carignan tested positive for methamphetamine.

Specifically, on May 8, 2023, Mr. Carignan submitted to urinalysis, as directed. The sample submitted was confirmed positive for methamphetamine.

Evidence in support of this charge is found in the Abbott Laboratories drug test report dated May 28, 2023.

#### Action Taken and Reason

Mr. Carignan began his term of supervised release on December 3, 2018. Since Mr. Carignan's release from custody, he has struggled with abstaining from controlled substances, specifically methamphetamine. When discussing the May 8, 2023, positive urinalysis with Mr. Carignan, he denied using any controlled substances. Mr. Carignan believes the positive urinalysis results were caused by having promiscuous sexual encounters with individuals who may have been under the influence. Mr. Carignan's treatment providers have been notified and individual counseling sessions have been increased. Since May 8, 2023, all of Mr. Carignan's urinalysis have been negative for controlled substances. Therefore, it is respectfully requested that judicial notice be taken of the positive substance abuse test.

Respectfully submitted,
